### What is the school doing that is most helpful to you as a parent?

Academics, and values

Keeping my child well discipline and responsible

Keeping us informed about class work and activities

Parent portal, communication

Parent portal - open life New of communication

School portal

Keeping me informed on a daily basis.

I can't think one thing...

the emails are very helpful and beneficial with regards to keeping parents abreast of activities.

### Share one thing you wish the school would do to improve the learning experience for you and your child.

Don't like school affiliation with smart tuition

Notify parents on children progress weekly

transportation and communication with school administrators

Promote parent involvement

The percent taken off on late homework, papers, Assignments, esp. When other grades are very good. Average is really affected.

More parent involvement and help more with the college process .

communication and more.. Why choose a google survey? Many people don't have a Gmail account. Some questions for me required an N/A. For example I never need a translator.

Letting me know about her grades more and how she can improve

I believe the block scheduling has been very beneficial to my student. It gives the student ample time in a class to acquire much need knowledge. Keep up the excellent work. The curriculum is fantastic, the only improvement would be more AP classes.
