

May, 2019

Dear Parents, Class of 2023:

This is a reminder that according to Connecticut State Law and the policy of Kolbe Cathedral High School, every freshman must have an up-to-date health form on record. **A blue health form must be completed and dated by your doctor to show that a physical examination and immunization, as seen below, has taken place between January 1, 2019 and December 31, 2019.** Students, who do not have a completed health record by December 31, 2019, will be **unable to return to school in January, 2020.** Students who play fall sports must have their health form completed by a doctor before the start of the athletic season.

Please contact your pediatrician as soon as possible to arrange an appointment. Guidelines for immunization requirements can be found on the health form.

Please feel free to call the school if you have further questions.

Sincerely,

Mr. Henry Rondon
Principal
