

How to Access your KCHS Google Account

Username:

The username is the same as your network username that you use to login to school computers (i.e. jsmith18), however you must add @kolbecaths.org to it - jsmith18@kolbecaths.org

Password:

Your password is the same 5-digit password that you use to login to school computers, but with your graduating year added to the end (i.e. royal2018). For teachers, graduating year is replaced by 1976.

Your Google Account will give you access to Google Apps for Education, including Google Classroom, and allow for a safe, secure environment to share and collaborate!
